ROAD GLIDE TWEETER POD

- Replaces factory speedo/tach bezel to add 1" custom tweeters
- Includes all plug-and-play wiring and two sets of grilles for easy customizing
- Disassembles easily to paint-match custom-painted fairings
- Custom-designed 50 watt (RMS) high-efficiency metalized dome tweeters with 3rd order (18 dB) passive crossovers
- Will work on 98-13 stock systems, amplified systems or aftermarket car radios
- For 98-05 models, an amp is recommended for best sound quality

NOTE: U.S. Patent #D638,407.

PART #	DESCRIPTION	SUG. RETAIL
4405-0205	For 98-13 FLTR/FLTRU models	$199.95

Shown with custom paint

"HOG-POD" FLHT/FLHX DASH TRIM/TWEETER POD

- Complete add-on tweeter kit
- Doubles as a fairing accent piece with decorative chrome trim (included)
- Pod comes "satin black" to match stock inner fairings (as shown)
- Disassembles easily to paint-match custom-painted fairings
- Black "see through" grilles can also be painted, chromed
- Second set of cloth covered grilles included
- Works with all Hogtunes speaker systems, 98-13 stock systems or bikes with aftermarket car radios
- Includes custom-designed 50 watt (RMS) high-efficiency metalized dome tweeters with 3rd order (18 dB) passive crossovers
- Radically improves clarity and performance of your audio system
- All mounting hardware, drilling template and plug-and-play wiring is included in box

NOTE: U.S. Patent #D602,478.

PART #	DESCRIPTION	SUG. RETAIL
4405-0172	For 98-13 FLHT/FLHX/H-D FL Trike models	$189.95

WINDSHIELD POUCH

- Designed to work with "Hog-Pod" tweeter pod (PART #4405-0172) installed
- Features three small front pouches and one large zippered pouch
- Front right pouch has grommet to allow Hogtunes audio cable PART #4401-0072 to pass through
- Made by Saddlemen

PART #	DESCRIPTION	SUG. RETAIL
3508-0019	For 98-13 FLHT/FLHX and H-D FL Trike models (except FLTR models)	$79.95

BIG ULTRA KIT

- Designed for any 98-13 FLHTCU but can be used on 98-13 FLHX with King Tour Paks and rear speaker boxes PART #4405-0229
- Kit includes 2 ohm "Hybrid" front and rear speakers and the all-new NCA (Not Car Audio) 40.4 amplifier
- Features MAXXBASS® and a circuit that makes each speaker sound bigger than it really is
- The amp will easily mount on top of the radio inside the fairing and produces a total of 160 watts (40 watts rms x 4)
- Can be easily configured for future system expansion
- The fan-cooled amplifier case features a "dish" cut into it, where the main speedometer/tachometer harness "rests"
- Wire harness is 100% plug-and-play
- Includes everything needed to complete the installation process

PART #	DESCRIPTION	SUG. RETAIL
4405-0210	For 98-13 FLHTCU or 98-13 FLHT/C/X W/ King Tour Packs and rear speaker boxes PART #4405-0229	$559.95

REPLACEMENT FRONT AND REAR SPEAKERS FOR 98-13 DRESSERS

- Replacement speakers for 98-12 models play at a minimum of 20% louder than previous models
- Increased tweeter size from .75" to 1" provides even more presence in mid-range and high-range frequency at highway speeds
- A lighter speaker cone and the "Hybrid Magnetic Assembly" helps overall volume
- Conservatively rated at 75 watts RMS power handling (150 peak)
- Sold in pairs

PART #	DESCRIPTION	SUG. RETAIL
FOR 06-13 FLHT, FLHX, FLTR AND H-D FL TRIKES		
4405-0169	2 ohm front speakers	$109.95
4405-0170	2 ohm rear speakers	109.95
FOR 98-05 FLTR, FLHT, FLHTC OR 98-13 BIKES WITH CAR RADIOS		
4405-0167	5.75 ohm front speakers	109.95
4405-0168	5.75 ohm rear speakers	109.95

REPLACEMENT SPEAKERS FOR 85-96 DRESSERS

- Direct replacement speakers for 86-96 model bikes equipped with factory radios
- Fit behind factory grills, includes 10mm soft rubber gaskets for an improved fit
- 4.25" speakers, 4 ohm, 2-way design
- Feature Hogtunes "signature" sound to enhance sound on a bike at speed
- Install using factory hardware
- Can be used on bikes with a car radio conversion kit

PART #	DESCRIPTION	SUG. RETAIL
4405-0263	For 86-96 FLT/FLHT models with factory radios	$99.95

160 WATT AMP

- 40 watt x 4-channel, fairing mounted amplifier
- For use with 2 ohm speakers
- A perfect upgrade for those who have upgraded their speakers on 06-13 models
- Compatible with tweeter pods PART #s 4405-0172 and 4405-0205
- Not for use with factory tour pak mounted amps installed (CVO)
- Adapter kit PART #4405-0232 is required on all Road Glide models

PART #	DESCRIPTION	SUG. RETAIL
4405-0231	40 watt x 4-channel amplifier	$349.95

"REV" SERIES 70 WATT AMP

- Includes all required wiring if amp will power fairing speakers, fairing lower speakers, rear speakers, or if this amp is being used as second amp in a Hogtunes system
- 70 watts/channel at minimum 2 ohms
- Will work with all models of Hogtunes replacement speakers
- PART #s 4405-0234, 4405-0096 and 4405-0232 are required if this is the second amp in the system

PART #	DESCRIPTION	SUG. RETAIL
4405-0264	For 98-13 FLHT/FLHX/FLTR/H-D FL Trike with factory radio (except CVO with factory amplifier)	$299.95

FLTR/U SPEAKER KIT

- Includes 2 ohm 5"x7" replacement speakers with grilles and all required hardware
- For use on 06-13 FLTR Road Glides with factory radio or on any 98-05 non-CVO Road Glide models with Hogtunes amp

PART #	DESCRIPTION	SUG. RETAIL
4405-0230	For 06-13 FLTR/FLTRU models	$129.95

7" WOOFER KIT

- Includes 2 ohm 7" woofers, grilles (not shown) and all required hardware
- Includes wire harness to plug into the rear channels of 40.4 amp PART #4405-0231
- For use with Hogtunes 40.4 amps
- Requires FLHT-style vented fairing lowers

PART #	DESCRIPTION	SUG. RETAIL
4405-0233	For 98-13 Dressers and H-D FL Trikes (except 98-09 FLTR)	$219.95

FAIRING LOWER SPEAKER KIT

- For use on bikes with fairing lowers
- Radio runs all existing speakers, and supplied amp runs fairing lower speakers
- Includes Hogtunes 24.2 amp, one pair of 5¼" Hogtunes speakers, fairing lower speaker adapters, and plug-and-play harness
- Compatible with CVO Ultras

RUMBLE ROAD™ ULTRA AMPLIFIED STEREO SPEAKERS

- Clear and powerful sound even at highway speeds
- RCA or Blaupunkt 4" Coaxial full-range speakers
- Built-in amplifiers and standard stereo mini-plug
- Produces approximately 70W continuous; 100W peak; into 4 ohm at 13.6 VDC with high-gain input
- Operates with or without the motorcycle running
- Packaged in an attractive chrome or black spotlight shell, it does not distract from the look of the motorcycle
- Features stainless steel or black grilles and all hardware included
- Works with most portable MP3 players and other personal stereos featuring a standard mini-plug headphone jack
- Installs easily on handlebars, spotlight mounting bars, forks or engine guards
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
4405-0160	Chrome w/ 1" mounting hardware	$369.95
4405-0161	Black w/ 1" mounting hardware	399.95

MH Instruments

RUMBLE ROAD™ LIMITED NON-AMPLIFIED SPEAKERS

- Custom product for motorcycles with existing car-stereo setups
- Attractively packaged in chrome or black spotlight shells to enhance the look of most any bike
- Based on the Amplified Rumble Road Premium speaker system, the non-amplified Rumble Road Limited is easily installed on handlebars, spotlight mounting bars, forks or crash bars
- Speakers work with any car-stereo system (either ground or bridged) to provide high-quality sound on the go or while parked
- 4 ohms at 105W peak/35W RMS
- Includes two 4" Rumble Road non-amplified speakers from RCA, two three-piece 1" mounting clamps in matching finish, wiring and 3' of black wire dressing

NOTE: The non-amplified Rumble Road Limited series requires an amplifier-equipped car stereo and is not designed for use with personal stereos. If you plan to use a portable MP3 or other personal stereo instead of a car stereo, check out the Amplified Rumble Road Premium speaker system PART #s 4405-0001 or 4405-0002.

4405-0017	Polished	$24.95
4405-0162	Black	29.95

ELECTRICAL NOISE FILTER

- Greatly reduces electrical noise or whine produced by some motorcycle electrical/ignition systems
- One filter is good for powering both Rumble Road™ speakers in the system

PART #	DESCRIPTION	SUG. RETAIL
4405-0007	Electrical noise filter	$9.95

GROUND LOOP ISOLATOR

- Suppresses any resulting noise in the audio line for those who use their bike's battery to operate a personal stereo
- Breaks the ground loop that would otherwise occur between a personal stereo and amplified speakers
- A necessary accessory for some satellite radio systems

PART #	DESCRIPTION	SUG. RETAIL
4405-0008	Ground loop isolator	$12.95

CRANKCASE™ AUDIO CONTROLLER/POWER SWITCH

- Oversized, glove-friendly knob makes it easy to control the volume
- Feel and hear the on/off switch
- High-visibility blue LED
- Crafted from precision-machined, lightweight billet aluminum, CrankCase measures 1.8" H x 1.7" W x 1.3" D
- Chrome-plating for sparkle and shine
- Sleek 1" mounting clamp hugs the tube and can be placed anywhere along it, including next to the brake or throttle controls; removable two-piece clamp allows mounting for handlebars measuring other than 1" standard
- Built-in fuse (5 Amps) for internal/external power, and standard electrical hardware compatibility
- Universal line-level input with 1/8" stereo plug
- State-of-the-art, surface-mounted electronics
- Weather-resistant

LED LIGHT RING KIT FOR J&M 7¼" FAIRING SPEAKERS

- Give your Harley fairing dash panel the ultimate custom look with J&M's new five-color (red, blue, green, orange and amber) fairing speaker LED light rings
- Designed to be used with the J&M brand $7^{1}/_{4}$" speakers with grille-mounted midrange and/or tweeter on StreetGlide/Ultra/RoadGlide/ElectraGlide fairings
- Rings are made with top-quality high-intensity LEDs, mounted on high-strength PCB board material, with total reverse-polarity/over-voltage protection as part of their design and are completely sealed for absolute moisture resistance to provide many years of service
- Ring color is controlled by individual PCB-mounted DIP switches to allow you to turn on one color at a time or a combination of colors, to help match to the color of your dash mounted gauges and/or radio lights
- Easy installation: rings simply sandwich between the J&M speaker grille and the plastic adapter/spacer ring that the speaker mounts to, during installation
- Ring power/ground wiring harness is made to plug into the back of the cigarette lighter socket, for a simple and easy plug-n-play installation
- Kit includes 2 LED light rings, power/ground wiring harness and complete installation/operation instructions

JMCB-2003B HANDLEBAR-MOUNTED CB AUDIO SYSTEM

- Advanced harness design for future J&M Bluetooth capability
- Features a 40-channel CB radio, NOAA weather band, rider/passenger intercom and stereo music amplification from any portable-type music device
- Mount it to your left handlebar with the proper bracket kit, connect the headset/power harness to your bike's electrical system (choose below between solo or rider/passenger kits), install a J&M license-plate mounted CB antenna (or any other properly tuned CB antenna, sold separately), plug in your favorite J&M dual-mode helmet headset/headsets and you are ready to go
- There are no other hidden black boxes to mount or clutter up your bike, as the complete system is on your handlebar (your portable music device is plugged into the system as a separate item)
- All knobs and controls have been designed for ease of use while riding, even with gloves on, and in addition the unit is water-resistant so you won't have to worry about getting caught out in the rain
- Audio performance is superb, even at high speeds, and that is most impressive considering its compact size
- Mounting bracket and lower-section hook-up cord sold separately
- Made in the U.S.A.

NOTE: The JMCB-2003B is a J&M 6-pin audio system that requires the pre-amplified microphone signal provided by our Dual Mode (ECD/ICD/BCD prefixed) helmet headsets along with the lower section hook-up cord PART # 4403-0053 or 4402-0047.

DUAL STREAM BLUETOOTH® STEREO TRANSMITTER

- Bluetooth® stereo audio adapter based on Bluetooth 2.1+EDR technology
- Connect various audio devices such as mobile phone or MP3 player by using the SM10
- It also supports onboard audio systems of specific brands by using optional audio cables
- Along with the dual streaming feature of SM10, both you and your passenger may listen to the same music or radio at the same time by using Bluetooth headsets in the market
- The SM10 has AUX audio input that enables you to connect additional non-Bluetooth audio devices such as radar/laser detector or GPS navigation
- Water-resistant for use in inclement weather
- Firmware upgradeable
- Talk time: 8 hours
- Stand-by time: 3 days
- 3.3" x 1.8" x 1.0"
- Two 3.5mm jack ports
- Lithium polymer battery; charging time: 3 hours
- Sold in a kit that includes Dual Stream Bluetooth Stereo Transmitter Main Unit, handlebar mounting kit, mounting cradle, USB power and data cable, 3.5mm 3-pole stereo audio cable, 3.5mm 4-pole stereo audio cable and cigarette charger

N-COM COMMUNICATION SYSTEM

•Nolan's N-COM system allows the freedom to talk from rider to passenger or bike-to-bike, talk on a mobile phone, listen to music, get directions from a GPS navigation system, connect to a CB radio, plug in music devices and connect to a bike's audio system (on some models). N-COM is for use with Nolan N-COM ready helmets (N-104, N-103, N43E/N-43, N-90 and N-85) and offers multiple configurations

N-COM MOBILE

•Utilizes the N-COM Basic Kit to connect to a mobile phone using a model-specific mobile wire accessory (not available from Parts Unlimited) or to a multimedia source (MP3, CD, GPS, etc.) using a multimedia wire accessory (sold separately) •Requires Basic Kit only

N-COM INTERCOM

•Allows all the features of N-COM MOBILE but adds the ability to speak with a passenger (passenger must also have N-COM Basic Kit installed)
•Can also be connected to some bikes' existing audio systems using motorcycle audio wire accessory
•Requires Basic Kit and Intercom E-Box

N-COM BLUETOOTH®

•Allows all the features of N-COM MOBILE but adds the ability to connect to a Bluetooth mobile phone, GPS unit or another N-COM BLUETOOTH helmet within range
•Can also be connected to some bikes' existing audio systems using motorcycle audio wire accessory
•Requires Basic Kit 2 and Bluetooth Kit 3

N-COM COMPONENTS

BASIC KIT

•Includes earphones, microphone and leads for connecting devices and charger; installs easily in minutes without tools or modification; Basic Kit Multi features stereo output

BASIC KIT MULTI

•Features stereo output and works on most non-N-COM helmets; installs using hook-and-loop strips and includes earphones, microphone and leads for connecting devices and charger; operates the same as a Basic Kit 2 (not for use with E-Box)
•Intercom E-Box fits in the side of an N-COM helmet and includes a 110V charger, a rechargeable lithium battery and an intercom wire; allows rider to answer phone and control volume directly from their helmet

BT3 KIT

•Bluetooth Kit 3 is the newest version of the N-COM Bluetooth Ebox
•Designed for use with the Basic Kit Mutli
•Allows rider to answer phone; bike-to-bike communication between two Bluetooth Kit 3 systems up to a distance of 1640 ft. (500 meters) (in an open field, with no obstacles); pilot-to-passenger communication via Bluetooth or wire; provides FM radio with RDS function with 6 pre-sets for your favorite radio settings; A2DP Mp3 Bluetooth player with Play, Pause, Stop and Skip controlled directly from helmet; audio configuration, FM radio and firmware update directly from PC via USB wire (included)
•Includes a 110V charger and a rechargeable lithium battery
•In order to use Bluetooth Kit 3, your Nolan N-Com helmet must be equipped with Basic Kit Multi

MCS (MOTORCYCLE COMMUNICATION SYSTEM)

•Installs into an N-COM-ready helmet just like the Basic Kit and allows wired connection to the bike's radio, intercom, GPS, CB, etc.
•MCS cannot be used with an N-COM Bluetooth kit, N-COM Intercom kit or multimedia wires (for connecting external audio sources); for that purpose, purchase Bluetooth Kit 3

ACCESSORIES

•Standard multimedia wire "S" connects any device with a 3.5mm, 4-pole audio port; "X" allows stereo sound
•GPS multimedia wire "T" connects Garmin Quest and Quest 2
•GPS multimedia wire "U" connects TomTom Rider and Garmin 2610, 2720 and 2820
•GPS multimedia wires "P" and "V" connect Garmin 2820, Zumo 400, Zumo 450, Zumo 500 and Zumo 550; "P" supports stereo sound
•Bike-to-bike multimedia wire "K" includes push-to-talk button and connects Alan 445 and BT and Midland GXT600, GXT600VP4, GXT650VP1, GXT650VP4, LXT420, LXT420VP3, LXT320, LXT320VP3, GXT500, GXT550VP1, GXT500VP4, GXT550VP4, LXT410, LXT410VP3, GXT400, GXT450VP1, GXT450VP4, LXT300, LXT300VP3, LXT315VP3, G300, GXT300, GXT300VP3, LXT310, LXT210, LXT210VP, G225, GXT250, GXT550, LXT310 and LXT350
•Bike-to-bike multimedia wire "W" includes push-to-talk button and connects Alan 777, K1 and 421 and Midland G5
•Motorcycle audio wire allows rider to plug into the bike's existing audio system; helmet must be equipped with Basic Kit and either Intercom E-Box or Bluetooth Kit 3
•12V motorcycle charger allows rider to charge N-COM system without a power outlet; includes cigarette-lighter-style plug that can be hard-wired to a motorcycle battery and a cable to connect the N-COM system
•Speaker pad kit is spare parts "speaker protection bag" for Bluetooth Kit Multi

N-COM® B4 COMMUNICATION SYSTEM

- Designed specifically for the Nolan N104 helmet
- Allows the freedom to talk on a mobile phone, listen to music on an MP3 player or built-in FM radio, get directions from a GPS navigation system, connect to a bike-to-bike radio, connect to some bikes' existing audio systems or talk to a passenger via intercom
- FM radio features search function and six station pre-settings
- Telephone via Bluetooth®: answering, hanging up, voice commands, redialling the last number (for telephones that allow it), intercom/phone automatic management
- Automatic exclusion of intercom and of the connected audio source during a telephone conversation; automatic reconnection at the end of the phone call
- Conference call function: 3-way telephone call between pilot, passenger and caller
- "Rider/passenger" intercom via Bluetooth®
- Bike-to-bike intercom via Bluetooth up to 800 meters (in open field, with no obstacles)
- 4-bike intercom: one-to-one communication and bike-to-bike call function
- Bluetooth connection to A2DP Mp3 players: Play, Pause, Stop, Skip directly from the helmet (AVRCP profile)
- Connection via Bluetooth to compatible satellite navigators: directions, MP3 music, mobile phone (for models that allow it)
- GPS "conference" function: pilot/passenger intercom active while the GPS is giving instructions
- Compatible via Bluetooth with all Bluetooth communication systems of the N-Com, X-Series and MULTI lines
- System includes high-quality audio speakers, rechargeable battery, Bluetooth electronics, Bluetooth antenna, noise-dampening microphone, ergonomic control keyboard, micro USB connector and 3.5mm jack connector
- B4 USB/bike charger: USB to mini A cable, charges from USB port to mini A or motorcycle accessory outlet to mini A; includes universal motorcycle accessory outlet for bikes not so equipped
- B4 USB/110V charger: USB to mini A cable, charges from USB port to mini A or 110V outlet adapter to mini A

DSR-1003G DIGITAL RECORDER AND CAMERA SYSTEM

4402-0057

- Complete system lets you record your ride
- Now features 3GP technology – saves videos in 3GP format
- Improved video color and detail
- Built-in MP3 player allows you to listen to music, now includes Thumper helmet speakers
- Can be used as an active rearview camera system
- Weatherproof, bullet-style camera has a rugged aluminum housing and weatherproof connectors
- Digital recorder/playback unit has full-color display, records video and audio from camera and remote-mount microphone
- Records using standard compression and file formats
- Saves videos in 320x240 resolution at 30 frames/second
- 1 GB built-in memory
- Accepts SD cards up to 4GB in size (4GB SD card equals approximately 4-6 hours of video/audio recording) (SD card sold separately)
- Color LCD and built-in speaker for on-the-go playback or rearview use
- Helmet speakers included
- Uses USB connection for transfer of video/audio files to a computer
- Analog RCA video/audio output allows you to play videos direct to TV
- Includes multiple camera mounts, all necessary hardware and adapters for battery-powered operation and 12V DC power cable for operation off of the vehicle battery
- All cables and accessories included in convenient carrying case
- Replacement bike camera mount and helmet camera mounts available separately
- DSR DC5 power adapter cable powers and charges the DSR-100 recorder from the vehicle's battery or any other 12V DC power supply
- Regulates and filters the DC voltage
- Power cable measures approximately 6'

TECHMOUNT
Accessory Mounting Systems

MOUNT KITS

- Mount kits are compatible with GPS, XM/MP3, cell phones, toll transponders, cameras and radar detectors
- Available in black or chrome finish
- Made from 6061 T-6 aluminum with stainless steel hardware

HANDLEBAR MOUNT KITS

- Handlebar mount kits fit all standard round-tube handlebar sizes (7/8", 1", 1 1/8" and 1 1/4"), requiring only 3/4" of handlebar space and can be mounted at any angle; available in basic or standard kits
- Wider clamp design (19mm) uses supplied hardware to provide 50% more clamping force without damaging or distorting the handlebars and provides a sturdy platform for even the heaviest devices
- Standard handlebar mount kits feature interlocking pivot design that requires no shaft and stays put even on tough terrain

CONTROL MOUNT KITS

- Universal control mount kits are designed to attach to the clutch or front brake control assembly on top of the OEM clamp; kit includes both metric and standard replacement mounting bolts to install on most motorcycles, even hard-to-fit models
- Interlocking pivot design requires no shaft and stays put even on tough terrain
- Features a standard round top plate for a more compact look; compatible with GPS, XM/MP3, cell phone, camera, radar detector units and more
- Plate area measures 2 1/4" diameter
- Pre-drilled standard four-hole "AMPS" pattern and a camera thumbscrew hole
- Side grip/pin design allows 360° rotation without removing any part of the mount; much easier to make small adjustments

MIRROR MOUNT KITS

- Mirror mount kits are designed to thread into the unused mirror mounting holes
- Standard mount will fit through 5/16" or 10mm open-hole design mirror mount clamps/controls

NOTE: The maximum weight of the mounted device should not exceed 2 lb.

LEADER motorcycle accessories

eCADDY LITE PHONE/MP3 MOUNT

- All Leader hardware is machined aluminum and chrome-plated
- Leader hardware features a patented slot-and-lug design that makes all parts interchangeable
- Can be used with most items with standard belt clips, including cell phones, PDAs, MP3 players, smaller GPS and satellite radio (if they have a case/holster with a belt clip)
- Plate area measures 1 3/8" x 2 7/8" x 5/16"
- Multi-faceted lug offers secure mounting at six different angles
- Fit left side or right side of most 1" or 1 1/4" bars, or a mount for all 96-12 Harley-Davidson handlebar controls with 1 1/2" screw spacing
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
0603-0129	For 1" bars	**$69.95**
0603-0130	For 1 1/4" bars	**$74.95**
0615-0078	For H-D controls	**$64.95**

LEADER motorcycle accessories

eCADDY™ UNIVERSAL PHONE/ MP3 PLAYER MOUNT

- The most versatile way to mount a smart phone or MP3 player on a motorcycle
- The cornerstone of the eCaddy™; mount is the Ultra-Swivel that provides unlimited positioning ability in three ways; riders will never have trouble seeing their phone
- The Ultra-Swivel is so sleek and slim they'll hardly know it's there
- The 2-hole diamond shape on the eCaddy™ is the perfect fit to the shape on the back of the smartphone cradle, giving it a clean, classic look that is unmatched
- Cradle dimensions: minimum width, 2.22"; maximum width, 3.75"; side clamp height 5.0"; side clamp depth, 1.25"; cradle height 4.0"
- Chrome mounts fit left side or right side of most 1" or 1¼" bars, or a mount for all 96-13 Harley-Davidson handlebar control clamps with 1½" screw spacing
- Kit includes eCaddy™ Diamond holding plate (chrome), Ultra-Swivel (stainless steel), mounting bracket with Ultra-Secure (chrome), mounting hardware (bolts and spacers)

PART #	DESCRIPTION	SUG. RETAIL
0603-0446	For 1" bars	$119.95
0603-0447	For 1¼" bars	124.95

PART #	DESCRIPTION	SUG. RETAIL
0603-0448	For H-D controls	$114.95

eCADDY™ ULTRA MOTORCYCLE WATERPROOF PHONE MOUNT

- eCaddy™ Ultra was designed with today's smart phones in mind; offers the most versatile way to mount a phone on a motorcycle
- The cornerstone of the eCaddy™ Ultra is the Ultra-Swivel feature which gives the rider unlimited positioning ability in not one but three ways
- Owners will never have trouble seeing the phone as it can mount vertically or horizontally to accommodate functions like GPS/navigation
- Waterproof; eCaddy Ultra includes the Ultra Buddy waterproof phone cover; rain is no longer a concern
- Features also include a sleek, slim look that fits most phones (3⅜" x 5¼"), large clear vinyl front (phone can be operated through the protective cover), hook-and-loop material flap closure (wires can be run out the edge of the material closure if desired)
- The eCaddy Ultra Plate contains four holes that "mate" to the back of the Ultra Buddy waterproof cover, ensuring that the phone will never come loose from the mount (NOTE: the eCaddy Ultra can also be used with your own phone holster or case; as long as you've got a belt clip, you're ready to ride)
- Chrome mounts fit left side or right side of most 1" or 1¼" bars, or a mount for all 96-13 Harley-Davidson handlebar control clamps with 1½" screw spacing

PART #	DESCRIPTION	SUG. RETAIL
0603-0442	For 1" bars	$134.95

PART #	DESCRIPTION	SUG. RETAIL
0603-0443	For 1¼" bars	$139.95

PART #	DESCRIPTION	SUG. RETAIL
0603-0444	For H-D controls	$129.95

eCADDY GARMIN NUVI GPS BALL MOUNT

- The simple, classy way to mount a Garmin Nuvi GPS
- All parts are made to last – machined aluminum with chrome plating and stainless steel; no plastic parts
- Will not scratch bars
- Faceted lug on the stem provides six mounting options to choose from
- 17mm ball (same size ball as a car mount) utilizes a stock Nuvi cradle or the socket-mounting hole on the back of the unit; just snap the cradle or unit directly into the ball mount
- Kit includes: Mounting stem with 17mm ball and Mounting bracket with UltraSecurity feature
- Holders fit left side or right side of most 1" or 1¼" bars, or a mount for all 96-13 Harley-Davidson handlebar control clamp with 1½" screw spacing

PART #	DESCRIPTION	SUG. RETAIL
0603-0438	For 1" bars	$59.95

PART #	DESCRIPTION	SUG. RETAIL
